

**SPEC SHEET****Pizza Cart Mobile**

Shown with Solid Surface Top
and without push handles

Specifications

Top is 16 gauge 304 stainless steel #4 finish. Front and back edges are turned down 102° and turned back 90° eliminating the gap between the top and the base of the cabinet. The ends are turned down 90° flush with cabinet base. The top is secured to the base with 4 stainless steel flush head screws.

Body of cabinet is fabricated of 1" square 18 gauge stainless steel and cold rolled tubing to form the top and bottom frames. Each is welded to 1-1/2" square 18 gauge stainless steel corner posts. Each corner post is capped. All joints are welded with all exposed welds being ground and polished. 20 gauge galvanized body panels are welded to tubing super structure.

Exterior back and end are trimmed with 22 gauge stainless steel #4 finish trim to accept laminated color panels. Laminate is applied to 1/8" board for additional strength. The front has two insulated self closing stainless steel doors with recessed handles and both doors have rubber gaskets to conserve energy and retain heat inside cabinet.

The two heated compartments are 16 gauge stainless steel #4 finish. Each compartment has two sets of 5 adjustable stainless steel universal rails that hold half sheet pans, trays and large pizza boxes. The interior dimensions are 19" wide x 20" deep x 20" high.

Bottom is fully enclosed. There is a 3-3/4" clearance from the bottom of the cabinet to the floor. Plate type 3" swivel non-marking casters with brakes.

Standard Features

- ☐ Two stainless steel push bars
- ☐ Two digital temperature controllers
- ☐ Two on/off switches
- ☐ Two insulated stainless steel doors with recess handles and gaskets
- ☐ Four sets of five adjustable stainless steel universal rails
- ☐ Each heated compartment holds five pans, trays or pizza boxes
- ☐ Plate type 3" swivel non-marking casters with brakes

Options

- ☐ Without push handles
- ☐ Plate type 5" swivel non-marking casters with brakes

Accessories

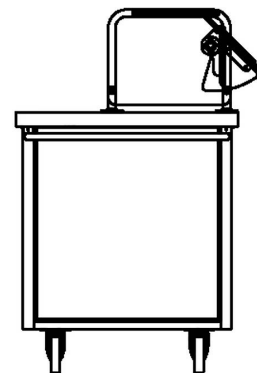

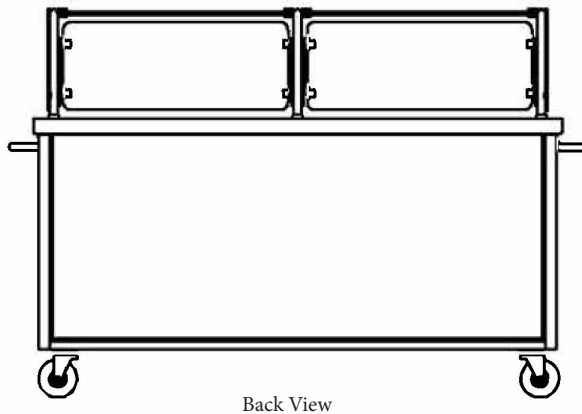

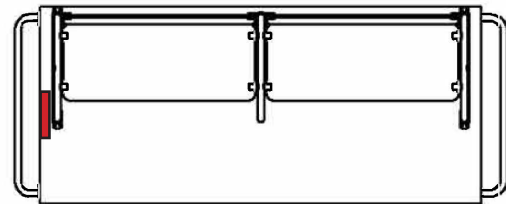

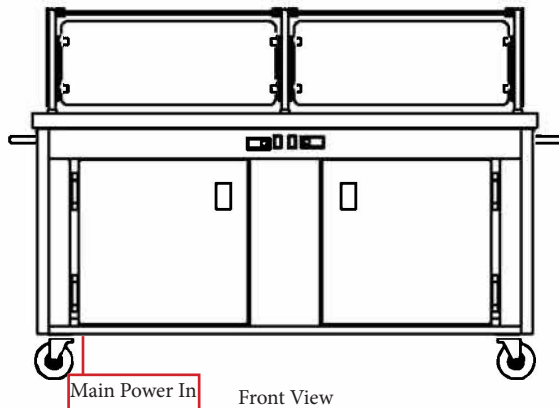

- ☐ Sneeze Guard SN6815 Acrylic / Co206
- ☐ Sneeze Guard SN6815SS Acrylic / Co505
- ☐ Sneeze Guard SN6816G Glass / Co864
- ☐ Premium High Pressure Laminate
- ☐ Graphic Panels Stand-offs
- ☐ Graphic Vinyl Decals

A digitally controlled, 2400 watt convection heating system, with a blower and heating element per heated compartment ensures consistent heating from the top to the bottom of each compartment.
